Professional Summary

Full Stack Web Developer specializing in the MERN stack with experience in building responsive, scalable web applications. Skilled in developing dynamic UIs with React.js and building secure APIs with Node.js and Express.js.

Proficient in MongoDB, RESTful APIs, and AI integration to enhance functionality and user experience. Focused on clean code, performance, and delivering business-focused solutions.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Front-End: React.js, Nest.js, Bootstrap, Tailwind CSS

Back-End: Node.js, Express.js

Databases: MongoDB, Firebase, Appwrite

AI & APIs: OpenAI API, REST APIs, WebSockets

DevOps & Tools: Git, GitHub, Netlify, Vercel, Postman

Others: JWT Authentication, OAuth, API Integration, Chatbot Integration, Server-Side Rendering (SSR)

Projects & Experience

Gabble – Real-Time Chat App (MERN)

Built a multi-user real-time chat application supporting media sharing, push notifications, and AI-powered conversation summarization using OpenAI API.

Meetsync – Video Calling Platform (MERN, Stream)

Developed a secure video meeting platform with room-based video/audio calling, screen sharing, and real-time chat using Stream API and Socket.io.

Store-it – Cloud Storage Solution (MERN, Appwrite)

Created a cloud-based file storage system allowing users to upload, organize, and manage files securely with real-time syncing and access control.

Password Manager App (MERN, OAuth)

Developed a password manager with encrypted storage, secure user authentication, and password generation features, following modern security best practices.

AI Resume Analyzer (Node.js, OpenAI API, Puter)

Built an AI-powered tool that analyzes resumes and provides feedback on structure, relevance, and keyword optimization for improved job match.

Education

Grade 8th, Army Public School For International Studies (APSIS), Lahore

Other Skills

Web Hosting & Deployment   API Integration & Automation   UI/UX Design & Responsive Layouts
